

Southampton Street
City Square
27 March 58

My dear Sir

Availing myself of your
kind permission I beg to enclose
you herewith three copies of the
Sate of Quercus I spoke to you
about - I should feel particularly
obliged by your getting them ^{into}
words in to me at least as
respects Antwerp - and I should
also feel gratified for any details
as to the Trade of Pulgrum in
general.

I have not been able to get
any late works by the Statistical
Functionaries of Pulgrum - I would
it not that I am afraid it is
pursuing too much on your part
- I should feel much obliged
by your putting me in the way
of getting any you may think of
importance - and will gladly pay
for them - Hoping you will excuse
this submission I am
with great respect
Most truly yours
J. M. Sturrock
