Dearest

I think this ought to go to you because it is not use till it is enclosed. Please be careful of it. Dont be cross with me for saying it is the sort of remark you dont like is it it. Dont you think you had better buy war loan with it. I think we shall be able to manage to pay off the debt at the bank without using it.

If you put it in to something at compound interest now for Clara it would just make a nice doers allowance for her when she is grown up.

It doubles itself at 5% in 20 yrs

It's one way of saving.

Mother just £1000 pounds at compound  
interest for us each when we were born

That is only a suggestion & perhaps not  
a very good one.

your loving

Ruth
