

Oct. 4 6.30 a.m.

My dearest Ruth - Again only a line or so for you. I could have written yesterday but I thought I should have time this morning. However I have to go on observation duty. The line is rather a muddle just now - I'm afraid it will be very difficult. We've had rain again here & everything is in a desolate mess - it's stopped operations to I expect - anyway the last two days have been very quiet - I'm still in my old dug out while Edgar sleeps with the left half forwards position. We ought all to be there, but the digging hasn't got on what with firing & wet weather & then it's certainly very convenient to go back & to in the car.

Two good parcels from you many thanks. The cake box seems an excellent pattern. But no letters now for several days.

I had another good look at the
photos of Cleo yesterday - was greatly
impressed - especially with the naked
one. I think the top part of her
face will be very much like yours.
She certainly looks most attractive
(her hair as curly as it looks)

As well as with great
love to you always

Your loving George
